Assistive technology and home modifications

If you are approved for assistive technology and home modifications, we can arrange these to support your safety and independence.

Assistive technology and home modifications are supports that help you to live at home for longer.

This includes products, equipment, and changes to your home. In addition to the cost of these items and related services, administration costs include:

- For assistive technology, the fee is 10% of the cost or $500 (whichever is lower).
- For home modifications, the fee is 15% of the cost of $1,500 (whichever is lower).

Important information

Your care, your way	We want you to be empowered to make decisions about your care. To ensure the best continuity of care, we aim to provide services using Anglican Care employees wherever possible. You may choose an external provider to deliver a service on our behalf. Anglican Care remains responsible for coordinating and overseeing the service. If you choose a service not provided by our Anglican Care team the full cost will be discussed with you prior to services being delivered. This may include a 10% fee for supporting this service.
Consumables	Some products may need to be purchased to support your care. The cost of these items will be discussed and agreed with you before they are purchased.
Cancellations and no-shows	At least two business days' notice is required for cancellation of a scheduled service. If less notice is given, or you are not available, the scheduled service will be charged. We may waive the service fee where extenuating circumstances prevent you from giving the required notice.
Additional services	If planned services may cost more than your available funding, we will discuss your priorities and options before making changes. With your agreement, we can also help request a Support Plan Review if your needs, goals or circumstances have changed.
Exit fees	If you choose to leave Anglican Care or transfer to another provider, no exit fee will apply.
