Anglican Care Advice to Residents, Families & Friends - COVID-19 Residential Update

Dear Residents, family and friends,

Please be advised that we have noted statements by the Prime Minister today regarding visitation in aged care facilities. As a result, this afternoon, Anglican Care's COVID-19 Crisis Response Team participated in a teleconference with the Minister of Health, Chief Medical Officer, aged care peak bodies and other aged care providers. Following this teleconference, we are awaiting further clarification from the Chief Medical Officer in relation to the visitation guidelines that were issued by the Commonwealth in mid-March, also taking into account the NSW Health guidelines regarding access restrictions.

On Monday, 27 April, the COVID-19 Crisis Response Team we will be considering amendments to our current visiting arrangements which will be communicated to you as soon as possible.

Please do not visit one of our homes over the weekend. Current restrictions are still in place. We appreciate your patience and understanding at this time.

Kind regards

A handwritten signature in blue ink that reads 'Colin Osborne'.
